

Smart-Learn 2018

Learning for Tomorrow

8-9 October 2018, Grand Nile Tower, Cairo, Egypt.

Organized by:

Smart-Learn 2018 is an international forum for the presentation and discussion of the recent advances and innovations in Smart Learning environments at School and on the University Level. **Smart-Learn 2018** gives the opportunity for leading-edge educators, developers, researchers, experts to meet, interact and exchange ideas in topics related to different topics related to the Smart Learning society.

This is a networking event organized in cooperation with the **National Erasmus+ Office in Egypt** as cluster meetings in the following tracks:

- ICT in Learning
- TVET Learning
- Energy Learning

The primary focus of **Smart-Learn 2018** is on new and innovative applications of technology-enabled education in Schools and Universities around the World. The conference talks will address the following topics:

1. Smart Content
2. Smart Technologies [Cloud, Mobile, Repositories, LMS]
3. Smart Infrastructure
4. Assessment and Quality Assurance
5. Virtual Reality and Augmented Reality in Education

The conference is co-funded by the Erasmus+ Programme of the European Union, and focuses on the outcomes of a number of Erasmus+ Projects in Egypt in the field of Education Technology: Virtual Labs, Special Education, STEM Education, Virtual Hospital, Museum studies and Manufacturing & Entrepreneurship. Smart-Learn 2018 is also organized in conjunction with the National Erasmus+ Day in Egypt which will be held on the 8th of October in the same venue.

If you are interested to give a presentation on a topic related to Smart-Learning in one of the above tracks, you are welcome to submit your abstract for presentation in the conference no later than 1 October 2018 to abstracts@smartlearnconference.org.
